

Regional Rail Link

Future plans for West Footscray Station

West Footscray station will be redeveloped to improve station facilities and transport connections to and from the station and surrounding areas.

Different station layouts which allow the construction of the new Regional Rail Link tracks through the area are being considered as part of the station redevelopment.

Works at West Footscray Station

Key features of the Regional Rail Link works at West Footscray Station include:

- Two new platforms
- New station buildings
- New forecourts and landscaping
- A new pedestrian footbridge, with stairs and lift access
- Bicycle storage
- Additional car parking spaces
- Disability access.

About Regional Rail Link

Regional Rail Link is a major new rail line that will provide capacity for enough extra train services for up to 9,000 passengers across the network in the peak period.

This project is jointly funded by the Australian and Victorian governments.
